

Baart

Baart technology transfer

Linde BRH

- R404a refrigerant, Danfoss compressors
- Clearly organised range with two heights and three widths each
- Greatest possible inside volume with smallest possible footprint
- Unitary design, unitary technology
- New colour concept
- Intermediate walls help adapt to any store layout
- In line with trend toward greater cabinet height and lower front panel
- Also available as matching roll-in cabinet
- Optimized temperature control
- Low power consumption
- Improved energy economizing package
- Air curtain standard with energy-efficient honeycomb air outlet
- Rows of display shelves adjustable for height (30 mm) and slope (0°/10°/ 20°)

Basic modules	125	188
Length* mm	1330	1960
