## Linde CIG / Grandor

We can offer wholesale quantities of Linde commercial chest freezers for supermarkets. These units are new or slightly used with small scratches from transportation, storage etc. but in perfect technical condition and with all standard accessories.

We can refresh selected or all outside surfaces on request, inner side is generally in good and very good condition.

Brand new freezers are also available.

## Designed for business

- Large cubic capacity minimizes restocking frequency
- Grouped cases lock together securely by easy-action catch
- Reduced energy consumption results in lower operating cost
- Display header for added value
  - Lighting forward and down on merchandise
  - Mounting surface for 60 mm or wider scanner price rail
  - Optional panel lettering
- Joints between cases masked to keep dirt out
- Anti-splash floor seal keeps space under cases dry
- Reliable product temperatures by Linde refrigeration
- Designed to promote impulse buying
- Display compartment matched to frozen food selections
- Matched system design for smooth integration in existing non-refrigerated display line-ups
- Convenient stocking

- Easy-cleaning sliding glass covers
- Display accessories to suit product assortment (baskets, racks, wire dividers)

## Designed for attraction

- Large product facing area
  - Easy-sliding glass covers
  - Flexibility of siting (stand-alone, line-up, grouped)
  - Single-pane safety glass for true-color product rendition
  - GRANDOR 1887 G model usable as crown end
- 
- Exceptional productivity per unit floor area
  - High resale value
  - Low energy consumption
  - No-maintenance refrigeration system
- 
- Entirely free from ozone-depleting substances
    - Environmentally compatible refrigerant R 404 A
    - Body insulation foamed with environmentally friendly pentane
  - Environmentally friendly solvent-free powder coated finish
  - No disposal problems at end of product life cycle
